BAILEY[®]
METAL PRODUCTS LIMITED

BAILEY[®]
METAL PRODUCTS LIMITED

MADE IN CANADA – HISTORY

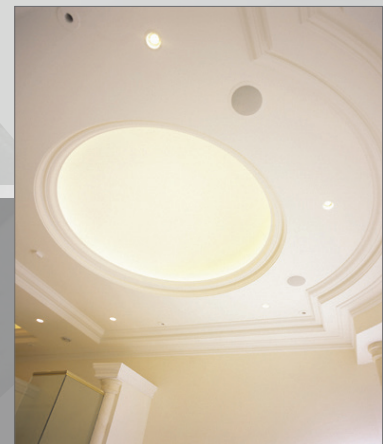

Founded in 1950 by Sam Bailey, **Bailey Metal Products Limited** is a family owned and operated Canadian Company. The Bailey Group of Companies is recognized as the industry leader, offering building solutions to both the commercial framing and drywall finishing residential markets.

Bailey is the only Canadian manufacturer of Paper-Faced Drywall Trims and our devotion to innovation, quality and value has created a strong brand upon which construction markets rely.

PLATINUM[®] PAPER-FACED DRYWALL TRIMS

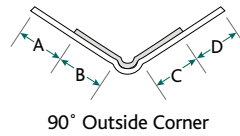

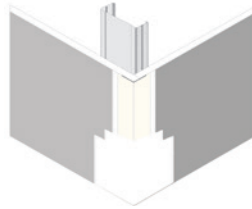

FEATURES & BENEFITS

- Platinum's[®] paper is impervious to scuffing, fluffing and damages caused by sanding and drywall knives.
- The paper flanges create reinforcement against cracking caused by movement and shrinkage of framing members.
- Platinum[®] tape-on trims are easily installed using joint compound so nail popping is not a problem.
- Platinum[®] paper-face provides superb chip resistance due to excellent compound, texture, and paint adhesion.
- Platinum[®] paper-face greatly reduces photographing and flash through on bullnose assemblies.
- Galvanized coated steel provides exceptional resistance against corrosion, while the high quality chemistry provides maximum strength.
- Easy to adjust during application to ensure a clean, precise corner that is long lasting.
- Uses very little compound in comparison to some assemblies.
- Available in a wide variety of widths and profiles to suit most any wallboard application.
- Meets or exceeds specifications ASTM C1047.

Platinum® Square Nose Tape-On Trims

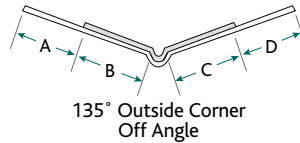

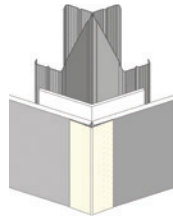

Platinum® Square Nose Tape-On Trims create a clean and precise square corner. The traditional styling of these corners provide sharp lines which gives architectural details such as paint transitions and step bulkheads a more dramatic look.

90° Outside Corner

DIMENSIONS

PRODUCT CODE	PART DESCRIPTION	A	B	C	D
PG1WX (L)	PG1-W Unequal Leg	7/8"	1/2"	3/4"	7/8"
PG1UX (L)	PG1-U Wide Equal Leg	3/4"	3/4"	3/4"	3/4"
PG1XWX (L)	PG1-XW Extra Wide Unequal Leg	3/4"	5/8"	7/8"	3/4"
PG1XUX (L)	PG1-XU Extra Wide Equal Leg	5/8"	7/8"	7/8"	5/8"
PG1SUX (L)	PG1-SU Super Wide Equal Leg	5/8"	1 1/8"	1 1/8"	5/8"

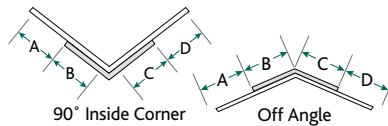

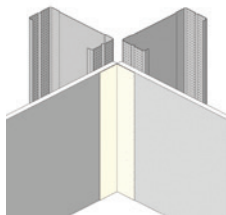

135° Outside Corner
Off Angle

DIMENSIONS

PRODUCT CODE	PART DESCRIPTION	A	B	C	D
PG1OX (L)	PG1-O Off Angle	5/8"	3/4"	1/2"	5/8"

Platinum® Square Nose Tape-On Inside Corners

Platinum® Square Nose Tape-On Trims offer a wide selection of profiles for use on 90° outside/inside and 135° off angle outside/inside corners to accommodate any thickness of wallboard. These trims can be quickly and easily installed using joint compound, leaving a crack resistant corner that is not subject to fastener popping.

90° Inside Corner

Off Angle

DIMENSIONS

PRODUCT CODE	PART DESCRIPTION	A	B	C	D
PG2X (L)	PG2	5/8"	3/8"	3/8"	5/8"
PG2OX (L)	PG2-O Off Angle	5/8"	3/4"	3/4"	5/8"

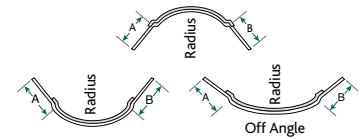

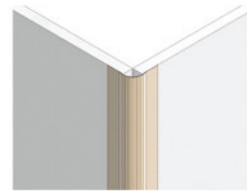

PLATINUM® PAPER-FACED DRYWALL TRIMS

Platinum® Bullnose Tape-On Corners

Platinum® Bullnose Tape-On Trims creates a smooth rounded corner giving a sense of openness and contemporary style to any room.

These trims are suitable for both 1/2" and 5/8" wallboard and are quickly and easily installed using joint compound, leaving a crack resistant corner that is not subject to fastener popping. Available in outside/inside 90° and outside 135° angle corners.

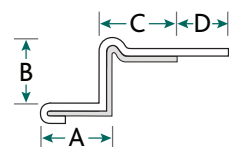

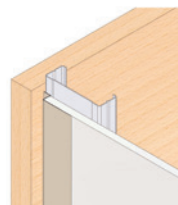

PRODUCT CODE	PART DESCRIPTION	DIMENSIONS		
		A	RADIUS	D
PG1BX (L)	PG1-B Outside	7/8"	3/4"	7/8"
PG1B50X (L)	PG1-B50 Outside Smaller Radius	7/8"	1/2"	7/8"
PG1BOX (L)	PG1-B0 Outside off Angle	1"	3/4"	1"
PG2BX (L)	PG2-B Tape-On Inside	7/8"	3/4"	7/8"

Platinum® Reveal Trims

Platinum® Reveal Trims are used to finish rough edges of wallboard where it abuts other building components such as suspended ceilings, beams, masonry or concrete walls, and openings.

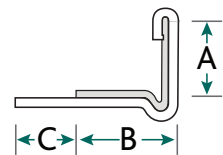

All these trims can be quickly and easily installed using joint compound, so backing is not required, leaving a crack resistant finish that is not subject to fastener popping. Available in a wide variety of sizes for most applications.

PRODUCT CODE	PART DESCRIPTION	DIMENSIONS			
		A	B	C	D
PGR50X (L)	PGR Reveal 1/2" x 1/2"	1/2"	1/2"	1"	3/4"
PGR5062X (L)	PGR Reveal 1/2" x 5/8"	1/2"	5/8"	1"	5/8"
PGR62X (L)	PGR Reveal 5/8" x 5/8"	5/8"	5/8"	7/8"	5/8"
PGR6250X (L)	PGR Reveal 5/8" x 1/2"	5/8"	1/2"	1"	5/8"

Platinum® Tape-On L-Trims

Platinum® Tape-On L-Trims are used to finish rough edges of wallboard where it abuts other building components such as suspended ceilings, beams, masonry or concrete walls, untrimmed door and window jambs, and bi-fold door openings. All these trims can be quickly and easily installed using joint compound, so backing is not required, leaving a crack resistant finish that is not subject to fastener popping. Available in a wide variety of sizes for most applications.

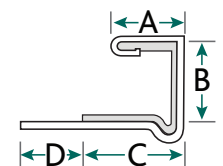

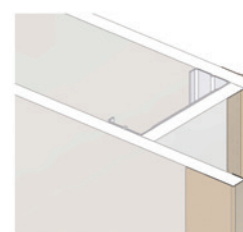

DIMENSIONS

PRODUCT CODE	PART DESCRIPTION	A	B	C
PG437X (L)	PG4 3/8" L-Trim	7/16"	1 1/16"	3/4"
PG450X (L)	PG4 1/2" L-Trim	9/16"	15/16"	3/4"
PG462X (L)	PG4 5/8" L-Trim	11/16"	1 1/16"	1/2"
PG475X (L)	PG4 3/4" L-Trim	13/16"	15/16"	1"
PG4100X (L)	PG4 1" L-Trim	1 1/16"	1 3/16"	7/8"
PG4125X (L)	PG4 1 1/8" L-Trim	1 3/16"	1 1/16"	7/8"
PG425X (L)	PG4 1 1/4" L-Trim	1 5/16"	15/16"	7/8"

Platinum® J-Trims

Platinum® J-Trims are used to finish rough edges of wallboard around openings such as window valance, window jambs, and bi-fold door openings. All these trims can be quickly and easily installed using joint compound, so backing is not required, leaving a crack resistant finish that is not subject to fastener popping.

DIMENSIONS

PRODUCT CODE	PART DESCRIPTION	A	B	C	D
PG550X (L)	PG5 1/2" J-Trim	1/2"	1/2"	1"	3/4"
PG562X (L)	PG5 5/8" J-Trim	7/16"	5/8"	1"	5/8"

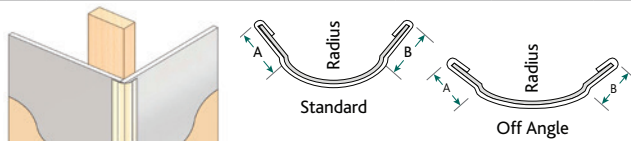

PLATINUM® PAPER-FACED DRYWALL TRIMS

Platinum® Bullnose Nail On Corners

Platinum® Bullnose Nail On Corners create a smooth rounded corner giving a sense of openness and contemporary style to any room. These trims are quickly and easily installed on wood framed 1/2" and 5/8" wallboard partitions using nails, staples and screws. Available in 5/8" and 7/8" flange outside 90° and outside 135° off angle corners.

All **Platinum® Bullnose Nail On** trims are manufactured with 1/4" wrap around paper edges.

DIMENSIONS

PRODUCT CODE	PART DESCRIPTION	A	RADIUS	D
PG1BNX (L)	PG1-BN Outside	5/8"	3/4"	5/8"
PG1BNXWX (L)	PG1-BNXW Wide Flange Outside	7/8"	3/4"	7/8"
PG1BNOX (L)	PG1-BNO Outside Off Angle	5/8"	3/4"	5/8"
PG1BNXOX (L)	PG1-BNXO Wide Flange Outside Off Angle	7/8"	3/4"	7/8"

Platinum® Square Nose Nail On Trims

Platinum® Square Nose Nail On Trims create a clean and precise square outside 90° corner. Square nose nail on trims quickly and easily install on wood frame 1/2" and 5/8" wallboard partitions using nails, staples or screws.

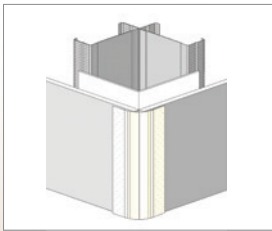

All **Platinum® Square Nose Nail On Trims** are manufactured with 1/4" wrap around paper edges.

DIMENSIONS

PRODUCT CODE	PART DESCRIPTION	A	B
PG1UBX (L)	PG1-UB	1 1/4"	1 1/4"

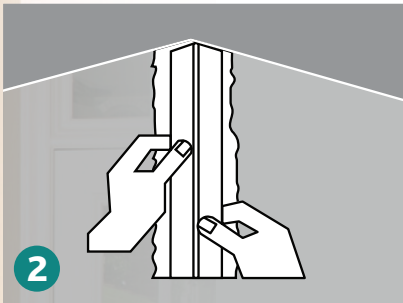

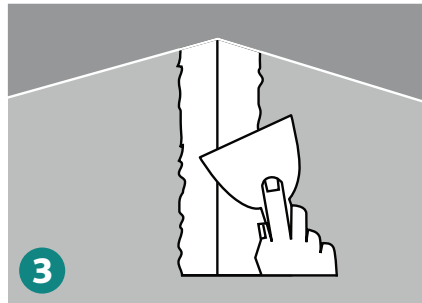

EASY TO INSTALL

OUTSIDE CORNERS

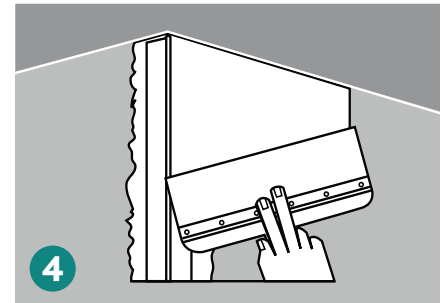

- 1 Apply a band of joint compound (Taping/All Purpose) 100mm (4") wide and 6mm (1/2") thick to each side of the corner.

Cut corner bead to length required and position over the joint compound allow 1/2" at bottom for expansion and contraction of framing members.

Embed the corner bead firmly into the compound using a small finishing knife. Wipe the excess compound off from under the paper to eliminate all the air bubbles (be careful not to remove all of the compound). Allow to dry minimum 24 hours.

Using a large finishing knife, apply all purpose compound in a band about 200mm (8") wide from the nose of the bead beyond the paper edge.

- 5 Level compound by drawing the knife along the bead with one edge of the blade riding on the nose of the bead and the other on the surface of the board. Repeat for the other side of corner bead. Allow to dry.
- 6 Apply second coat once previous coat is dry. Feather the edges of each coat about 50mm (2") beyond the preceding coat.
- 7 Repeat process for third coat.

Remember to sand between coats.

INSIDE CORNERS

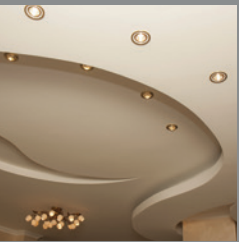

Inside corners are installed similarly to outside corners except usually only one cover coat is required. An inside corner tool can be used to apply and smooth the compound if desired.

L-TRIM

L-Trim is installed similar to outside corners except only one side is finished.

BULLNOSE CORNERS

Bullnose corners are installed similar to square corners with exception to the drywall edges not to exceed the corner of the framing substraight.
