

# Why Choose **BAILEY**<sup>®</sup> VALLEY FLASHING?

BAILEY METAL PRODUCTS offers Valley Flashings with both a hem and a hem rib option in addition to our standard valley. These features provide Roofers with a higher quality product ***at the same price*** as a standard valley.

## HEM:

A hemmed edge is one that has been folded over for added safety

- Reduces the possibility of injury (such as cuts or slices to fingers)
- Adds strength to outer edges of panel

## RIBS:

Ribs are raised stiffening ridges along the outer edges of the valley

- Adds strength and rigidity to the panel
- Reduces the chances of folds, creases or bends occurring
- Easier to carry and handle on the roof

## W-VALLEY:

A raised ridge running the length of the valley

- Additional strength and rigidity to the panel

**Dimensions Available:**  
12" x 12"  
Standard lengths: 8' & 10'  
*Custom Sizes Available.*
