JOIST END — ANGLE CLIPS
FOR BAILEY FLOOR JOIST

These clips are designed to connect floor joists to the rim joist at the perimeter of the floor, to headers at floor openings, and flush to beams.

THESE CLIPS CAN ALSO BE USED TO:
• Connect lintels to king studs at openings in loadbearing walls
• Attach solid blocking to adjacent joists for bridging
• Connect miscellaneous framing components
• Act as a bridging clip for 10” studs

PRODUCT FEATURES:
• These clips are designed to fit inside of the joist and allow 1/4” clearance at both ends
• The leg length will not interfere with the flange of the joist
• An edge distance of more than 1/2” to the screw hole is maintained
• The holes are located to provide easy access for the installation of the screws
• Adequate number of holes are provided
• Pre-punched holes provided for #10 screws

NOTE: These clips are not recommended for use as a bearing stiffener. For bearing stiffeners use Bailey web stiffeners
## Dimensions and Information on the Joist End — Angle Clip for 8", 10", 12" and 14" Joists
